

30th October 2006

I am Sue Fawdry, *B.H.S.A.I.**, Qualified riding instructor and owner of Chiverton Riding Centre for the past 20 years . I am astounded at what I have witnessed in this horse , Paddy . My former employee , Rosie Holt invited me to see this demonstration , before and after . When I saw the horse before , he was crippled , was obviously in pain and very reluctant to move. He was also suffering from severely itching skin and had large scabbed areas with hair loss. Although apparently he is twenty years old , he appeared to me to be looking around twenty-eight years old.

When I saw him after his treatment he was totally sound , keen, with normal skin and coat and looking and moving like a twelve year old ! I know I have seen a miracle . I said ,prior to this treatment , that this horse needed putting down long before – thank goodness he wasn't !
